

Critical Care Concepts is based conveniently with offices in Hawaii and Virginia and conducts this fully approved 2-day certification review course throughout the country.

Do you want to obtain certification as a Critical Care Nurse? Have you ever dreamt of becoming the top of your field? Or are you currently pursuing certification as one? Our course is one, **out of six courses in the WORLD**, which is fully approved and accredited. We will prepare you for certification in the Critical Care and Transport environment. We offer a comprehensive review of human systems, disease processes and the treatment modalities provided in the emergency and flight environments.

This course is approved by the Virginia Office of EMS, Emergency Nurses Association (ENA), and the Board for Critical Care Transport Paramedic Certification (BCCTPC) for 16.5 CEU's for all levels of providers.

Previous participants have had high success rates with the **Flight Paramedic – Certified (FP-C)**, the **Certified Flight Registered Nurse (CFRN)**, and the **Certification in Emergency Nursing (CEN)** examinations, and this course is taught by some of the most experienced and active Flight Nurses, Flight Paramedics, and FAA Instructors in the country.

Snacks will be provided throughout the day, as well as juice, sodas, and coffee.

You can leave with a **90% chance of passing** your exam, **PLUS** all your certifications re-certified at the same time. This is a great convenience and saves time and money!

Course Instructors

Richard A. Patterson

MBA, NR/CCEMT-P, FP-C, MICP, CFI, CFI-I, AGI, IGI

In addition to being a Certificated Flight Instructor for Airplanes & Helicopters, Richard is also an Instrument rated Commercial Pilot (Multi Engine, Single Engine, and Helicopter), and is certified by the FAA as an Advanced & Instrument Ground Instructor. He was awarded the prestigious "Master" level safety award from the FAA, and has worked in Emergency Management and as a Flight Paramedic (Both Fixed & Rotorwing) for the last 18 years. He has managed several air medical programs, has helped start two programs from the ground up, and has also worked as Base Supervisor for several CAMTS accredited rotor-wing programs. He is Instructor credentialed in BCLS, ACLS, PALS, ITLS, NRP, PEPP, PHTLS, and EMT-Paramedic. He was recently welcomed to the Editorial Board with the Air Medical Journal, and to the IAFP as the Virginia State Delegate. Richard is a regular contributing writer to Vertical 911 magazine, Helicopter Life magazine, & Waypoint AirMed & Rescue magazine. His works have also been published in various nursing and EMS journal publications.

Christina D. Patterson

RN, MS, CCRN, CEN, CFRN, NREMT-P

Christina is currently a Flight Nurse in Hawaii and has worked as Director of Critical Care and Emergency Services for several Trauma Centers throughout the US, and also is the Director of Emergency Services for Critical Care Concepts, Inc. located in Suffolk, VA. She is responsible for operations of the Intensive Care units, Critical Care units, Telemetry, step-down units, and the Emergency Department. She is Instructor credentialed in BCLS, ACLS, PALS, NRP, ENPC, TNCC, and is the Regional Ambassador for the NC area Chapter of AACN. Her work has been published nationally in various critical care nursing journals, and she received the coveted national award from "Who's Who in Business", and "Best of the Best" in Female Executives. She has worked in Critical Care and Emergency Departments with various Level I & II Trauma Centers in Pennsylvania, New York, North Carolina, and Virginia for over the last decade.

Carlos Tavaréz

RN, CFRN, CTRN, CEN, CC/NREMT-P, FP-C, EMT-T

Carlos is a Flight Nurse and Flight Paramedic with Bayflight in Orlando, Florida and has worked in the HEMS environment for nearly a decade, practicing at one of the most progressive programs in the US currently. He is also the Florida State Delegate for the International Flight Paramedics Association (IAFP), and involves himself in the industry nationally, promoting safety and education. Carlos is also Instructor credentialed in ACLS, PALS, BCLS, PHTLS, ITLS, and EMT-Paramedic.

Instructors subject to change depending on availability
